

DIPJYOTI DAS

+91-7577033248 — dipexplorerid23@gmail.com — linkedin.com/in/dip-jyoti22 — github.com/dipexplorer — Guwahati, Assam

EDUCATION

Gauhati University

B.Tech in Computer Science

2024 – 2027

Guwahati, Assam

Assam Engineering Institute

Diploma in Computer Engineering | CGPA: 8.5

2021 – 2024

Guwahati, Assam

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Tailwind CSS, Three.js, Responsive Design

Backend: REST API design, Node.js, Express.js, WebSockets (Socket.io), Authentication (JWT, OAuth 2.0), RBAC

Databases & Caching: MongoDB, PostgreSQL, MySQL, Redis

DevOps & Tools: Git, GitHub Actions (CI/CD), Firebase, Supabase, Cloudinary, Postman

EXPERIENCE

GirlScript Summer of Code (GSSoC) 2025

Mar 2025 – Jun 2025

Project Admin – LegalHub (AI-Powered Legal Platform, Open Source)

Remote

- Led code reviews and architecture decisions for 33+ contributors across 80+ PRs; ranked #53 on GSSoC leaderboard; enforced GitHub workflow and quality standards.
- Designed modular MVC backend architecture using Express.js and MongoDB, enabling development of AI-powered search, real-time communication (WebSockets), and secure authentication (OAuth).

GSSoC Extended & Hacktoberfest 2024

Oct 2024 – Nov 2024

Open Source Contributor – Ranked 27th Globally

Remote

- Merged 83+ PRs across multiple open-source repos; resolved critical backend bugs, optimized MongoDB aggregation pipelines, and implemented missing API endpoints; earned Hacktoberfest SuperContributor 2025 (6/6 PRs approved).

InnoByte Services

Jan 2024

Full Stack Developer Intern

Remote

- Developed RESTful e-commerce backend with Node.js, Express.js, and MongoDB; implemented secure product catalog, cart management, order processing, JWT-based admin authentication, and dummy data initialization for testing.

Chegg India

Apr 2023 – Oct 2024

Computer Science Subject Matter Expert

Remote

- Provided technical solutions for 500+ complex problems spanning DSA, system design, development, DBMS, OS, and computer networks; maintained 4.8/5 quality rating.

PROJECTS

LegalHub – AI-Powered Legal Platform [Live] [GitHub]

Mar 2025

Node.js, Express.js, MongoDB, Mistral AI, Socket.io, Passport.js, EJS

- Architected AI-powered legal platform integrating Mistral AI and semantic search for intelligent query resolution across legal datasets.
- Designed modular MVC architecture and implemented real-time communication (WebSockets), secure authentication (OAuth), automated testing (Jest), and CI/CD pipelines for production deployment.

LearnSight – Adaptive Learning Platform [Live] [GitHub]

2025

Next.js, TypeScript, Firebase, Firestore, Tailwind CSS

- Developed adaptive learning engine using dynamic scoring algorithms to adjust difficulty in real time based on user performance across multiple cognitive dimensions.

Acadence – Intelligent Attendance System [GitHub]

2026

Next.js, Supabase, Tailwind CSS

- Developed role-based attendance system with Supabase-backed server logic and access control.
- Built predictive analytics module to simulate attendance scenarios and calculate eligibility thresholds.

VideTube – Video Streaming Backend [GitHub]

2024

Node.js, Express.js, MongoDB, Redis, JWT, Cloudinary

- Designed scalable video backend with JWT authentication, media handling, and core APIs (videos, comments, subscriptions).
- Optimized performance using Redis caching and MongoDB aggregation, reducing database load by 60% and significantly improving API response times.
